Customer Reviews

There are a hundred reasons why I love this book and would recommend it to anyone. 1...It has the notes, the chords and best of all it has the easy numbering system where c is 1 ; d is 2; e is 3 ; f is 4; etc.....2...don't let the easy numbering system discourage you.....the opposite is true.....if you have some initial success playing show tunes and old favorites you will continue playing music.....3.....Your success will motivate you to practice without noticing how much work you are doing....it will be fun.....4.....You will do songs like THE WAY WE WERE, I LEFT MY HEART IN SAN FRANCISCO, STARDUAST, SEPTEMBER SONG, FLY ME TO THE MOON, APRIL IN PARIS, DIXID, THIS LAND IS YOUR LAND, GOD BLESS AMERICA, ARE YOU LONESOME TONIGHT AND SO much, much more.....5.....the idea with music is to have fun.....6.....to be able to gather around the piano and play some tunes is a real confidence builder.....7.....like exercise equipment, language courses and so many other activities, if you don't have success along the way you will give up.....you have success which motivates even more success.....8....even more remarkable is that from playing these show songs you develop a feel or style of your own

and you get a "sense of music" that is invaluable.....9.....I like the idea that with a few hours of practice on a song you can have fun with it.....10.....maybe your classical music teacher will shake his head, but you will make more progress on the time put in than with so many of the other courses or books.....11....Here is the sad and funny part to the whole review....something this wonderful is out of print.....it shows you that people in our society often fail to appreciate wonderful and simple pleasures.....
