This is a collection of fun songs everyone knows and loves. The entire book is filled with fun, happy pieces. We were continually excited as we turned the pages and played through this collection of favorites. It is a great book of practice songs to review the skills acquired in level 3, or just for fun time at the piano. This book will keep young people interested in playing piano and make practice desirable! The songs in this level really start to sound more full and beautiful. There is quite a bit of moving around, as well as quite a bit of accidentals. It keeps the mind and fingers fresh, and strengthens weak areas in this fun level. In my opinion, level 3a/b is where you really start to transition from "easy" to skillful playing.

These are wonderful, well-known arrangements for students who require something more difficult than the early Thompson Disney books, but not as difficult as the original arrangements of the songs. One of my young teen boys practices much more since he got this book.

FABER is always good and always dependable. I use the songs in this book as supplemental fun

stuff. Adds to the chore of the main curriculum.

My piano students enjoy playing from all the Faber supplementary piano books, but this is a great one for song choices and accessible yet enjoyable arrangements.

All the Faber and Faber supplemental books are terrific. I am a piano teacher and love the "Popular" series -- great motivator for kids to practice!

This arrived in one day. My mom needed it for a piano pupil, and it was just the right book. The level is just what it says. that it is, 3A-3B.

good book for advanced students.

The FunTime book is just that, fun. My son really enjoyed playing all the popular songs. He pick the Star Wars theme for his last recital and it was a big hit.
