AIRPORTS: East Vs West, A Photo Exhibition.

Synopsis

A candid pictorial review of two airports on different sides of the world after 9-11 and how each has adjusted to modern day security threats. Which side has maintained good relations with its users and employees and which side has become one of the worst rated in the world? The answer may surprise you.

Customer Reviews

this interesting book reveals the current sorry state of american airports and the TSA. It should be required reading for every worker involved in and their security around the country. It begins with a little background information at first which kind of reads like a guide book, then it gets very interesting and explains what changes should be made to vastly improve the system for passengers
