Great Again: How To Fix Our Crippled America

Synopsis

In this book (previously published as *Crippled America*), we're going to look at the state of the world right now. It's a terrible mess, and that's putting it mildly. There has never been a more dangerous time. The politicians and special interests in Washington, DC, are directly responsible for the mess we are in. So why should we continue listening to them? It's time to bring America back to its rightful owners - the American people. I'm not going to play the same game politicians have been playing for decades - all talk, no action, while special interests and lobbyists dictate our laws. I am shaking up the establishment on both sides of the political aisle because I can't be bought. I want to bring America back, to make it great and prosperous again, and to be sure we are respected by our allies and feared by our adversaries. It's time for action. Americans are fed up with politics as usual. And they should be! In this book I outline my vision to make America great again, including how to fix our failing economy; how to reform health care so it is more efficient and cost effective and doesn't alienate both doctors and patients; how to rebuild our military and start winning wars - instead of watching our enemies take over - while keeping our promises to our great veterans; how to ensure that our education system offers the resources that allow our students to compete internationally, so tomorrow's jobseekers have the tools they need to succeed; and how to immediately bring jobs back to America by closing our doors to illegal immigrants and pressuring businesses to produce their goods at home. This book is my blueprint for how to make America great again. It's not hard. We just need someone with the courage to say what needs to be said. We won't find that in Washington, DC.

Now I've got to be honest. This is my first review of any product online, and my first time reading any book, let alone a political book since I graduated high school three years ago. I hate books, and I hate politics. But I owed myself, because I love Trump. I never thought in a million years someone would open my eyes to the world of politics, and make me actually understand what is actually happening to our country. I was completely blind to the fact that our country is in such dire shape prior to Trump's announcement that he is running for president, and oh he is running. Since his announcement, I have been following his every move. Everyday I get online and search for anything, and everything Trump. Things such as videos of him speaking on the campaign trail, policy proposals on the VA, tax plans, and of course the debates. Oh how I love to watch him put politicians, and more recently moderators in their place, yes I'm talking to you MSNBC. You can't stump the Trump, he is on a whole other level when it comes to these talking heads. He can't be bought, if you insult him he will K.O. you, and the liberal media can't stand him. There's a famous quote by Mahatma Gandhi â œFirst they ignore you, then they laugh at you, then they fight you, then you win.â • This pretty much sums up the Media vs. Trump scenario we have been seeing for the past four months. But I digress. Donald Trump has charged the public with a vast amount of anger and, disgust with how our government is run. We have been taken advantage of by the incapable politicians in Washington long enough, and I believe a vast amount of people are just fed up.
