Customer Reviews

Terrible! This book is smaller than any other art instruction book I have ever seen. However, the biggest problem is that it is totally in black and white. How can you have a "color wheel" with no color on it (it does)? Ridiculous! The cover is the only "artistic" thing about it. I will return this book immediately.

I agree with the first review here and wished I would've seen it before I bought the book it's a waste of money and I'm going to send it back it's black-and-white with very little help.

This book makes an attempt to explain technique, not an actual how-to. The writing was beyond poor. Luckily I ordered it on Kindle Unlimited.

I liked the book because it's a basic review of many principles on colors, theory and other basics for beginners like me.
