Not only is this an ideal textbook for a course on real estate law for paralegals, but also much of the training that is required of real estate paralegals can be advantageous to the notary signing agent as well. There is much overlap in the two fields. What I find most useful about this textbook is that you are not just reading theory. It's all applicable knowledge. Each chapter has clearly defined objectives that outline what you will be able to do upon completion of it. You will immediately be able to apply what you have learned in real life situations. Every aspect of real estate law is covered. Notary signing agents will find Part II of the book extremely useful. It is entitled: The Closing: Residential, Commercial, and Construction Loan Closings. One of the main reasons I bought this book is because it is the textbook that is used in a real estate paralegal course at a school that I am unable to attend at this time. I wanted a book that would be ideal for self study. There is also a workbook that accompanies it. I have compared several textbooks on real estate law for paralegals, and find this one to be the best. I highly recommend it.

Even the professor who was teaching the class repeatedly stated that she did not like this textbook. I found that I needed to Google further explanations of terms highlighted in the book to get the best understand of the information.

For the seller, they sent it real quickly, and I was able to use it for class. Thank you! For the product, I felt it was a good Real Estate law book because it covered the basics. Of course, our teacher had to explain what did apply and what was different in our jurisdiction. As you would expect, it's just a general practices of Real Estate law, and it was just as described.

I think this is an interesting book to learn the basic of real estate. Basically you acquire knowledge of the rights and the duties when buying or selling a property.

excellent they meet all my expectations I can recommend this product to others read is a good habit thank you

Well written! Very organized and helpful!
