Customer Reviews

A good book and CD for just learning how to play some songs. I wish the book had a spiral binding-it would be easier to flip the pages. I never took any drums lesson and this is a great way to start especially if you can read the music.

I haven't used the backing tracks yet, I have been just playing along to the actual songs. I have been playing drums for just under a month now and practice pretty regularly and most of these beats are super easy. Most of my trouble comes from playing living after midnight. The rest of the songs (other than some fills) should be no problem for a beginner. The book is well written and having the words above the notes makes it much easier to find your place if you get lost. It is a little

annoying to have to flip the pages for every song but I don't know if page flipping could have been avoided altogether. Anyways, good songs, quality writing, good price.

One can learn the basics from this book. Of course there will be a need for further instruction, but it is a good start.

Drumming book for my daughter, brand new with the CD and the cd sounds good on my cd player and plays and sounds well on my windows 8 desktop touch screen. I only gave it 3 stars because I prefer more OLD Skool R & B, Motown era but can't find any but the 1 Motown book vol #18. I know Motown has way more to offer any beginner drummer as a playalong, why i'm having a hard time finding them is unknown. all I get is rock & rol in search results. So i'll keep searching for more Motown, stevie wonder, ect

Great selection. CD is good to have. Love it

wish it had lyrics but otherwise very realistic to real tracks and great to play along with
