David Michaels has published his third innovative book directed at learning for those of us who are out of 'formal school' (read one of his books and it becomes obvious that David thinks the world is an on-going classroom!) His previous books are MAKE MONEY TEACHING: THE NINE ESSENTIAL STEPS and THE MOTIVATION HABIT: THE FIVE STEPS TO LASTING ENERGY AND FOCUS. Now David takes us on a new learning venture, unlike any this reviewer has seen in other teaching materials. As the intro states, 'In his own experience he found that he learns quicker if it doesn't feel like studying. His books provide the reader with material that is easily accessible but has enough challenges that they learn at a steady pace. Instead of studying lots of out of context grammar and vocabulary you will naturally improve in these areas through reading engaging articles and stories.' Translated, that means that this is a book that is entirely in Spanish and designed to make you work from the first words - read a statement (significant words underlined), follow with an example posing a new word, use the new word to gain the answer and move on to the next statement in that Part's discussion of a topic. The book has twelve such articles that gradually introduce new words to your growing Spanish vocabulary so that by the end of the book you are able to read fairly sophisticated articles comfortably. Or as David phrases it, there are over 290 new words and phrases introduced in context that allow you to see how the language is used in real life. Every new word is explained in simple Spanish. By learning Spanish in Spanish you will learn a lot quicker. You will effectively begin to think in Spanish, and this is a huge step towards your goal of fluency.
