The only problem with this music is that it is pretty advanced. This was no surprise, but is slightly discouraging for my sons, who want to play like Luka and Stjepan! On the other hand, it is an incentive for them to practice!

The book came early with the cheapest shipping, took about 3 days. The book was in perfect condition. This is not a book to get started on. This book features almost every song from their album (one is not there due to copyright issues). Overall a 5 star product.

all of the arrangements sounded lovely, although probably incorrect in many places. I can see a lot of differences in my fingering that i've learned from the sheet music and Luka and Stjepan's

fingering at concerts and in video. One thing that bothered me a lot though was that it lists the song hurt on the back, and I really enjoyed listening to their take on it and I was excited to play it, but when I went into the sheet music to find it, it wasn't there. In parenthesis next to the title it says quiet. So if you put (Quiet)* next a title is that just a way of saying it's not there?

purchased for my son and he loves it, as do I listening to him practice. It has a couple of duet parts that he practices with his brother.

This is by far my favorite album. Especially like there is only one featured artist, LangLang on the piano, which is great. No singing! I bought the deluxe edition which included the DVD of several of the music covers. GREAT ALBUM! Keep up the great music. Renee

Got this for my son who loves the cello and rock music. He has been playing cello since he was 7 and is now 20. It was a perfect birthday present, and he is looking forward to teaming up with his friend who also plays cello to have some fun.

It arrived in 2 weeks instead of 1 month and 2 weeks. It has also two little books for each player. I couldn't expect anything of better :)

Purchased for high school senior. Student immediately started sight reading through entire book. Didn't put his cello down. Recommended for advanced players only.
