Customer Reviews

Excellent book- one of best Etsy books I have read so far (the other ones are his book on Pinterest and Blogging) . Clear concise advise. I would definitely recommend it to anyone who sells on Etsy! Thank You Charles!

Generally excellent and easy to read. I do disagree with some of the ideas on domain hosting. I've had positive experiences with those listed. Apart from that, very good stuff!

This book is an excellent resource that I highly recommend. Skip the other books and start with this

one. A quick read that is well organized and full of great information.

Great information, well written. One of the best how to guides I have ever read. Now just to find the time to do it

For me it just was not as I expected. I am a beginner and it confused me.
