This audiobook is short, to the point, and controversial. A secret biological 'hack' you can play on your body to start sending off scents designed to turn women on in your presence. A 'ninja' way to use the infamous friend zone (when a woman tells you she "just wants to be friends") to make her MORE attracted to you! Two MORE ways to turn the friend zone to your advantage. ## Customer Reviews

I've read a lot of books on seduction and PUA and Dante Dylan cuts to the chase of all tricks, nicks, and gambits you will ever need. And it's actually easier than you think. Understand that dominance, confidence, and power come first before looks and this is what women are hardwired for. Showing a notch or 2 less interest in her at all times, and last but not least learn to eliminate needy-ness. This book is probably the best book out there that will help you make changes quickly in your life so buy it and listen to it 30 times so it becomes a part of your character.

Similar to his other dating relationship book *How to Get Almost Instant Obedience From Your Woman - Wife or Girlfriend* It tells it like it is. If you have read other beat around the bush books about women they say some of the same things but Dante really puts them in a funny guy relate-able context. If you have that kind of humor.

I thought this was a very informative book and I plan on using the methods in the book in my life. I feel that any man having difficult time keeping the interest of a woman or getting the interest should read this book.
